EDII gets CoE tag, sets up sixth centre in Rwanda

Ahmedabad: Gandhinagar-based Entrepreneurship Development Institute of India was recently conferred the 'Centre of Excellence' tag by the ministry of skill development and entrepreneurship. The recognition will help EDII become a one-stop national resource for industry, academia and governments, said officials. Moreover, the institute also set up India Entrepreneurship Development Centre at Kigali, Rwanda, the first in Africa and sixth overall by EDII in collaboration with the Government of India.

V Muraleedharan, MoS of external affairs, on November 15 inaugurated the ED in Rwanda. The institute already has centres in Cambodia, Laos, Myanmar, Vietnam and Uzbekistan. "The centre will instill entrepreneurial culture amongst indigenous entrepreneurs and equip them with knowledge and experience to create conducive environment for MSMEs," said Dr Sunil Shukla, director general of EDII.
