Media Release

GEM 2020-21: GEM 2020-21 media release

GEM, a leading independent think tank (GEM) has released its annual report for 2020-21. The report highlights the key findings and trends in the entrepreneurial ecosystem in India. The GEM Index, which measures the entrepreneurial activity in India, has shown a significant increase in the number of startups and the number of patents filed.

The report highlights the following key findings:

1. The number of startups in India has increased significantly in the past year.
2. The number of patents filed by entrepreneurs has increased by 25%.
3. The GEM Index has shown a 3% increase in the entrepreneurial activity in India.
4. The report also highlights the role of incubators and accelerators in supporting startups.

The report also highlights the challenges faced by entrepreneurs in the current global pandemic, and the measures taken by the government to support startups.

The GEM Index 2020-21 report can be accessed on the GEM website.
About Global Entrepreneurship Monitor

The Global Entrepreneurship Monitor (GEM) Survey is the largest annual study of entrepreneurial dynamics in the world. GEM was conceived in 1999 and has since been venerated for the credibility and coverage of its research. With the Indian Entrepreneurial Eco-system becoming robust by the day, the GEM-India Consortium is assuming a major role in probing the rapidly evolving nature and the level of entrepreneurship in India. The GEM-India Consortium is also spreading its wings to involve regional and state-level entrepreneurship institutions to ensure maximum reach in researching the multiple dimensions of Indian entrepreneurship.
