Sustained and equitable socio-economic development can well be achieved by nurturing and promoting entrepreneurship. However, to ensure a high incidence of entrepreneurship among various target groups, there is a need to create qualified and well-trained Entrepreneurship Trainers who could motivate, train, guide and counsel potential and existing entrepreneurs. Entrepreneur Trainer – Motivators are trained to assist and hand-hold entrepreneurs through the various stages of setting up and sustaining an enterprise. To create a cadre of well trained ‘Entrepreneurship Trainers’ at the national level, EDII has designed impact making virtual ‘Trainers’ Training Programme on Entrepreneurship. After receiving overwhelming response from across the country, EDII announces the next virtual programme in the series, to be organized during 20-24 June, 2022.
